A word about grading records.

We have carefully described the condition of every record that we are listing on ebay. Everything we sell comes with a money back guarantee.

We are offering many original and early pressings on ebay in the next few months.

If a record is sealed, it is often difficult to determine if it is a first pressing. Please feel free to ask questions about any items. 631-423-8449 We will be glad to help.

MINT-... Like new. The record has the original glossy finish, packaging is bright and clean and there is no wear or marks on the label.

VG++ or VERY GOOD++...Excellent condition. May have a few scuffs or very slight scratches. The jacket and label are clean with the possibility of some minor rubs on the label or spindle. This is a very collectible grade.

VG+ or VERY GOOD+...Has the beginnings of some light general wear, some scratches that may sound, split in the jacket and some label wear.

VG or VERY GOOD...General wear on record, label or jacket. These are not bad copies, in some cases they may be the best copies you might find on a rare record.

Our grading is conservative-We tend to under grade! Please bid with confidence on these records, you will be pleased with the results.
